

Since signing with the Indiana Telephone Privacy we have not been bothered by unwanted telemarketers calling us at all hours. You should not lessen the standards of the Indiana Telephone Privacy Law.If I buy something I will buy it locally. Many of these calls prey on the elderly and get them to agree on the spur of the moment instead of giving them time to think things out.I am very pleased with the Indiana Telephone Privacy Law and do NOT want to see it modified to any lower standard.
